

JUSTIN MA

Promotional Photographer

Since completing my Bachelor of Photography in 2004 I have been working as a professional photographer in the areas of commercial, fashion, corporate and photojournalism. As well as my professional photography I also work on a lot of personal projects. For my own work I like to use a film and analog formats to disassociate the process with these works from my professional work. Recently I was invited to exhibit my series, "River", as part of Head On Photo Festival 2017 in Sydney.
